

Executive Summary

The OLA Booking Analytics Dashboard provides insights into booking performance, revenue, vehicle utilization, cancellations, and customer satisfaction during the selected period (July 2024).

Key Highlights

- Total Bookings: **103K**
- Total Revenue: **₹35M**
- Successful Booking Rate: **62.09%**
- Cancellation Rate: **37.91%**
- Average Booking Value: **₹549**
- Average Ride Distance: **14.18 km**
- Top Performing Vehicle: **Prime Sedan**
- Top Payment Method: **Cash**

Overview Analysis

Findings

- The platform generated approximately **₹35 Million** revenue from **103K bookings**.
- Nearly **62%** of all bookings were completed successfully.
- Around **38%** of bookings were cancelled, which is relatively high and requires operational improvements.
- Cash contributes the highest revenue among all payment methods.
- Booking trends remained stable throughout the month with only minor daily fluctuations.
- Prime Sedan generated the highest overall revenue among all vehicle categories.

Business Insight

The business maintains consistent booking demand, but the cancellation rate is a significant area for improvement.

Vehicle Analysis

Findings

- OLA offers **7 vehicle categories**.
- Prime Sedan generated the highest revenue.
- eBike and Prime Plus also performed strongly.
- Mini generated the lowest revenue.
- Average ride distance is approximately **14 km**, indicating medium-distance trips dominate.
- Vehicle performance is fairly balanced across all categories.

Business Insight

Prime Sedan is the company's strongest revenue contributor and should receive priority during peak hours.

Mini vehicles may require promotional offers or pricing optimization to improve utilization.

Revenue Analysis

Findings

- Total Revenue reached **₹35 Million**.
- Average Booking Value is **₹549**.
- Cash is the highest revenue-generating payment method.
- UPI contributes the second-largest revenue share.
- Credit Card and Debit Card usage remain comparatively low.
- Daily revenue remains stable throughout the month with no major drops.

Business Insight

Customers clearly prefer Cash and UPI.

The company can increase digital payment adoption through cashback offers or promotional campaigns.

Booking Analysis

Findings

- Total Bookings: **103K**
- Successful Bookings: **64K**
- Cancelled Bookings: **39K**
- Daily Average Bookings: **281**
- Highest revenue-generating pickup locations include:
 - Yeshwanthpur
 - Vijayanagar
 - Varthur
 - Whitefield
 - Yelahanka

Booking Status Breakdown

- Successful Booking dominates.
- Driver cancellations are higher than customer cancellations.
- Driver Not Found also contributes significantly to booking failures.

Business Insight

Driver availability appears to be a larger operational challenge than customer behavior.

Increasing driver supply in high-demand locations can significantly improve success rates.

Ratings Analysis

Findings

- Driver Ratings remain consistently high.
- Customer Ratings are also positive with only minor variation.
- Prime Sedan receives the highest overall customer satisfaction.
- Rating distribution indicates that most rides receive good feedback.
- Ratings remain fairly consistent across different payment methods.

Business Insight

Customers are generally satisfied with ride quality.

Maintaining driver service quality while reducing cancellations will further improve customer experience.

Overall Business Recommendations

Increase Booking Success Rate

Focus on reducing driver-side cancellations and improving driver allocation.

Promote Digital Payments

Introduce discounts and cashback campaigns to encourage UPI and card transactions.

Optimize Fleet Distribution

Deploy more Prime Sedan vehicles during peak demand because they generate the highest revenue.

Improve Driver Availability

Increase driver supply in major pickup locations like Yeshwanthpur and Whitefield.

Reduce Cancellation Rate

Implement faster driver matching and improve ETA accuracy to lower cancellations.

Final Conclusion

The OLA Booking Analytics Dashboard reveals a healthy booking volume and strong revenue generation, with **Prime Sedan emerging as the highest-performing vehicle category** and **Cash being the most preferred payment method**. While customer satisfaction remains high, the **37.91% cancellation rate** represents the biggest opportunity for operational improvement. Addressing driver availability, reducing cancellations, and encouraging digital payments can significantly enhance customer experience and overall business performance.
